But if you get a little insight, you touch your own wisdom, and your own wisdom, what wisdom is, it's a God-given intelligence before it is contaminated by the human thought. And if you can bypass the human thought, and you get into this wisdom, then your whole life will change. The next generation that become therapists, psychiatrists, psychologists, medical doctors, they'll be the ones that will promote this through the world.

The new therapists, like many of you here, you don't take the patient back to the past, you bring them to the present, the now. That's why the mystics say that there's a lot of power in the now. You bring them to the now and you say, "Listen, the past is dead. It no longer exists. It's only in your head. It's only thought." If you can see beyond those words, immediately you're healed.

This is what creates the oneness of life, because the formless and the form are one. And if you ever realize the true meaning of the oneness of life, you've found the greatest gift that anybody could ever find. See, a level of consciousness is a level of understanding. And every level of consciousness you rise, you get more understanding. And you get more, and you get more, and you get more, until you come to the end of it.

And when you come to the end of it, this is where your whole system, your whole mind system, your thoughts, your consciousness that you have now, the personal, it dies. The ego dies. The ego consciousness.

“If you can bypass the human thought, and you get into this wisdom, then your whole life will change.”
